This shows our observation. The Commercial of yes- how much of a statesman he is. A states terdsy takes a decidedly gloomy view of man is commonly supposed to be a man the local situation, and says that "the de- of sufficient practical sense not to identify mand for funds continues, if possible, to himself with utterly impractical and offen sucrease on the street, and the most unex- sive schemes. Judged by this standard. ceptionable paper is still offering at out however, both STUART and HUNTER are rageous rates. The unsettled condition of the market can be chiefly traced to a number of unfavorable reports, which have been circulating in the mouths of the gossips, concerning the solvency of some of our banking concerns, which rumors, upon investigation, have uniformly proven to have been without foundation, perhaps "conceived in malica and will be laughed to score throughout the "conceived in malice and tion, perhaps "concei-brought forth in spite."

This is pretty dolorous from Pittsburgh but bad as itis we are not prepared to con- mation. Such men, her preter clude that it is yet quite equal to Steubenville, judging from the following para- Why can they not give her a chance to graph in the News of that city :

"It gets to be pretty serious when the people and the countrest man in town can stand on his head their barbaric nonsense. best man in town can stand on his head for five minutes, with shake up intermis-sions, and not even a nickel will roll from stons, and not even a literal will form the stone of the

The Employes Who Keep their Pin-ces in Times Like These.

A season of panic is literally a consuming fire. It tries every body in some way those who lost slaves and not those who and some people in more ways than one. lost husbanps or brothers, their sole sup It tries those who have much to lose, and port perhaphs; not those who lost a leg it tries even more severely in many in- or an arm, or their health, but simply the stances those who have no actual money glave holders. Well may the Dispatch to lose save as they earn it in the shape say that of salary or wages. In times of panic every employer is forced to choose between his employes, as to who he will keep and who he will discharge. Naturally he retains the clerk or workman who is the most serviceable, the employes say such a scheme that would thus select a favored class for benefits, and of this class give the greatest benefits to those who had owned the most negroes, although having the most land, had saved the most serviceable, the employers from the disasters of war—we say such a scheme would convert Virginwho is the least of an eye servant, the one, who has been long known as tried the one who has been long known as tried and trusty, the one who is pleasant, prompt work, the one who is pleasant, prompt and reliable. Character comes to the front in times of general depression. Then it is that it is worth gold to the man who possesses it. Then it is that a line is possesses it. Then it is that a line is that whether the property of the destinition of drawn between good, better and best, sayisg nothing at all about persons who are neither good, better nor best. As one of ER.—We have a pamphlet prospectus of the Ohio City Iron and Nail Works, situour exchanges, the Akron (O) Beacon very truly remarks: ated over at Martin's Ferry, sometime

employer's business except that it should known as Clark's Nail Mill. This pros The clerk who cared nothing about his turnish him with enough money to gratify pectus gives some particulars about the frivolous and perhaps depraved tastes; the mechanic who when the noon whistle sounded would drop his raised hammer without striking the already commence blow; the errand boy who when entrusted with a mission was dilatory and unreitable-all these are readily dispensed with On the other hand, the kind that are re tained are those who when wanted can be found at their post, and in an emergen cy are true and trustworthy."

"A clerk of this kind would rather un-"A clerk of this kind-would rainer unthe a knot than cut a string, if it was better to save it. A mechanic of this class
would walk up to the top of a building of
hunt to the bottom of a pile of material,
rather than put a stick of badly seasoned
clieveling a top.

Cleveland \$4.75 per ton. A Rolling Mill wood or a defective piece of iron in a job he was finishing. And employers soon find out who these men are and regard them with a just appreciation. Not one of them can long conceal his real qualities of them can long conceal his real qualities and thereby be unfairly rated. Employers as compared with Pittsburgh is put down at \$100 per day. The yearly product of the calmost invariably take a man for just mill is estimated at 130,000 kegs of nails, ided." Thus man who drove the first spike in the Union Pacific Railroad has "spit-almost having by the product of the mill is estimated at 130,000 kegs of nails, ided." There must be some awful catasworth at \$4 25 per keg \$552,500. The worth at \$4 25 per keg \$552,500. The pacific in North Pacific.—Brooklyn. all who are siming at advancement and permanency in their positions could real-ize this fact and then act upon it."

THE PETROLEUM MARKET.— The cheapest commodity before the public these days is carbon oil. The shrinkage was a passed as a pass in price has been going on steadily for several months. And now it has the weight of the panic superadded. This, duct of nails, valued at \$559,500, leaves a better times. too, notwithstanding the large and increasing exports to Europe. The increase
is production more than keeps pace with
consumption. The Pittsburgh Commercian.

To show that this is not an impracticasumptien. The Pittsburgh Commercial of yesterday remarks that there is an ble estimate the following brief history of unusual disinclination to operate in oil the Bellaire Nail Works is given: unusual disinclination to operate in oil even at the low prices prevailing. The crude article is offered freely at 3 cts per gallon in Pittsburgh and the refined at 124 and 124. At Parkers we notice sales of 1,000 barrels Union pipe, at 97½ cts per barrel and 1,000 barrels Fairview, at 85 cts per barrel.

"The Bellaire Nail Works is given:

"The Bellaire Nail Works, located about six miles south of Martin's Ferry,

O, have been in successful operation for early five years, starting with 8 Pudding Furnaces and 24 Nail Machines, and though burned down once, it has already paid for itself and increased its capacity to 16 Pudding Furnaces and 51 Nail Machines, and now have orders far pacity to 16 Pudding Furnaces and 51 Nail Machines, and now have orders far pacity to 16 Pudding Furnaces and 51 Nail Machines, and now have orders far pacity to 16 Pudding Furnaces and 51 Nail Machines, and now have orders far pacity to 16 Pudding Furnaces and 51 Nail Machines, and now have orders far pacity to 16 Pudding Furnaces and 51 Nail Machines, and now have orders far pacity to 16 Pudding Furnaces and 51 Nail Machines, and now have orders far pacity to 16 Pudding Furnaces and 51 Nail Machines, and now have orders far pacity to 16 Pudding Furnaces and 51 Nail Machines, and now have orders far pacity to 16 Pudding Furnaces and 51 Nail Machines, and now have orders far pacity to 16 Pudding Furnaces and 51 Nail Machines, and now have orders far pacity to 16 Pudding

>
> The manufacturing surroundings of the ew enterprise are given as follows:

pre said nail.

In the School District of Martin's Fer ry, there are 2,500 inhabitants, furnishing the labor and principal portion of the captal for a diversity of Manufacturing Establishments, among which we may mentablishments, among which we may men tion a Blast Furnace—the pioneer furnace of Eastern Ohio, which has been in blas since 1856, now operated by the Benwood Nail Works, of Wheeling, W. Va., and turning out metal above the average tandard of product and quality. It noted as being among the very successfurnaces of the Eastern Ohio district. out metal above the averag There is also a Foundry and Machine Shop, having capacity for and now con-structing Blast Furnace and Rolling Mill Machinery—a Stove Foundry for Agristructing Blast Furnace and Rolling Mill Machinery—a Stove Foundry for Agricultural Works; one of the largest Fint Glass Works in the country; Planing Mills, Woolen Factory, Nail Keg and Barrel Factories, Grist Mill, Saw Mill and Tool Works. In addition, there are two Rolling Mills, and Nail Factory, one Steel Works and a Planing Mill in course of erection. Thus it will be observed that all the available means of the town are invested in manufactories and this fact is nvested in manufactories, and this fact is used apology for asking the attention of outside parties to our enterprise, believing it to be a worthy object of investigation

The Utilization of Waste Fuel.

The amount of fuel that is wasted every year in the coal banks in and around Wheeling is so great that we will not dare fire-brand among the Southern people to estimate it either in bushels or dollars themselves. It condemns the idea ag It is simply immense, The abandoned rooms in one of our banks contain often hundreds of tons of slack, and even coarser coal, that cannot be utilized in manufacturing. Therefore it is wholly lost. Coal being cheap nobody save the very poor will use anything but coarse coal in their houses. And yet this slack is just as good as the biggest lumps that we burn in our grates if we could only find way of manufacturing it into the same sort of lumps. It is claimed that a plan for co agulating it into lumps has been dis overed at Mauch Chunck, Pa. "The binding material is clay-which

is neither combustible nor fusible. Bitum inous or resinous material is not used for adhesive purposes, the only cement being five per cent of common yellow clay. The lumps are immersed in a solution of resin, thus giving a perfect waterproof covering. The cost of manufacture at the resin, thus giving a periect waterprocovering. The cost of manufacture at the mines is 85 cents per ton. The lumps which are egg shaped, can be handle without soiling the fingers, and they bur with a steady blaze, holding their shap until reduced to ashes. The machiner for manufacture as exhibited in the mode dispurses entirely with handling the ma for manufacture as exhibited in the model dispenses entirely with handling the materials. The clay is poured in through one hopper, the coal dust through another, the substances ialling into equally revolving partitions on two separate shafts, the portions that take the coal waste receiving and delivering exactly nineteen times as much as those that take the clay. As the coal and clay fall together they are sprinkled with milk of lime, which the machinery delivers in due proportion. The moistened mass is carried by a screep propeller into the mixing ma. by a screw propeller into the mixing machine. The plastic product is forced thence by a series of knives and a screw thence by a series of knives and a serew propeller arranged on a central shaft, giving a pressure of several tons to the inch, through an aperture, upon molding rollers which receive it in oval cavities. From these the lumps are delivered in shape and size like hen's eggs. This shape was adopted as the result of many, considerations and experiments. The lumps had been made in cubes, but these falling together with flat antaces in the furnace. burgh is given at \$3.75 per ton, and at gether with flat surfaces in the furnac Cleveland \$4.75 per ton. A Rolling Mill did not permit free passage of air betwee them. A similar though less forcible of jection was urged against cylindrica forms. The egg shape gives the greates possible spaces between the lumps.

CUBAN AFFAIRS.

Secretary Fish's Opinion in Regar to the Virginius Affair.

New York, Nov. 11.—A Washington correspondent has had an interview with Secretary Fish regarding the shooting of the passengers of the Virginius, and the Secretary said it was a cold blooded murder, and no one of sound judgment preder, and no one of sound judgment pre-tends to apologize for the butchery, but the Cubans themselves are a miguided set. They have had presumed patriots running loose in New York and Wash-ington cities who, had they been made of sterner mettle, would have been fighting battles on the island instead of manufac-turing neeless and search enthusiam in uring useless and pseudo enthusiam in hose cities. No one denies that Ryan and his conferees were in commission the Cubians. If an American is willing to enter the service of a loreign power he does it at his own risk, and has no right at every turn which proves inmical to his own interests or life to ask the intervention of the Government he has voluntarily left to battle for another

ower. It would have been much more reditable to the Cuban authorities to power. It would have been much more Captain Hall the book on the evening of creditable to the Cuban authorities to his departure, wished to obtain it if ever have kept their officers at home doing service where it was valuable. Battles war, she relinquished the wish. Mrs. icought on enthusiasm breathed in Wash-Hall was visibly affected when she saw ington and New York will not gain the deeply worn volume. The inscripcular victories or add one chaplet to the cause. If they had done more service in fly-leaf—"Lookout Mountain," "Stone Cuba and less elsewhere, the cause on the River," "The Bloody Field of Chicka-Island might to-day present a more fistter-manga," "The March to the Atlantic," is a smell be easily read. Guan victories or aut one caspiet to incause. If they had done more service in Guba and less elsewhere, the cause on the Island might to-day present a more flattering aspect. Cuban warriors should be made of better stuff than those who float account these cities calculated and are account these cities calculates and and are i made of better stuff than those who float around these cities soliciting aid and encouragement for the Insurgents in arms. Secretary. Fish, added, that he sympathized with Cubs, but could not render aid in any manner which will conflict with the comity of nations; and further, he wanted to see better metal from Cubathan has yet been sent before he could hope to hear of their ultimately achieving their independence. In the present juncture of affairs, he said the State Department will use the utmost diligence to partment will use the utmost diligence t be advised at the earliest practicable mo nent. After we have full facts we will

Memphis, Nov. 11.—But one death from yellow fever to-day, Charles Calam, of Geneva. The Howards report four new cases.

say about the Execution of Mrs. Surratt. WASHINGTON, Nov. 11.-Ex-Presiden

Johnson has addressed a communication to the Washington Chronicle in reply to that of Judge Holt published in the same paper in August last on the subject of the execution of Mrs. Surratt as one of the assassins of President Lincoln. After reviewing the evidence adduced by Judge Holt Johnson says:

Holt, Johnson says:
"In his search for testimony Holt sucthe spanish government, like our own, admits the impracticable character of those with whom it has to deal in Cuba. The troubles which now convulse Spain the Executive mansion in the usual way herself render, her almost if not quite powerless to act efficiently in the affairs family entrance to the Executive office. of Cuba and restrain the excesses which under other circumstances might be prevented.

The examination of the papers took place in the library, and he and I alone were vented. ratt. In acting upon her case no recon mendation for a commutation of her pu ishment was mentioned or submitted t me, but the question of her sex, which had aready been adverted to and dis-cussed by the newspaper columns, pre-sented itself and was commented upo-both by Judge Holt and myself will peculiar force and solemnity. He urge that the fact that the criminal was a wo-

of our consultation, Judge Holt wrote the order approving the sentence of the court. I affixed my name to it, and roll-ing up the papers, he took his leave, carry-ing the record with him, departing as he had come, through the family or private entrance. From the above statement it will be noted that the papers were not submitted in the usual tway, by the Secretary of War, but way, by the Secretary of War, but brought to the President by the Judge Advocate General under, of course, the instructions of Mr. Stanton. This doubta Advocate General under, of course, the instructions of Mr. Stanton. This doubtless was done to save time and hasten the execution, and evinces the spirit which animated Judge Holt during the entire proceedings. Who can doubt that if his name and that of Judge Bingham had been attached to the petition signed by a five members of the court, and prayer had been brought to the attention of the President. Such an application would have been duly weighed by the executive before the final action in the premises. Mr. Johnson says in the conclusion it being absolutely certain that if the petition was attached to the original record before it was submitted to the President it is not to bee found in the printed record authorized by Judge Holt and certified to to the Commission. The question arises which of the two is authentic and genuine.

If the record in possession of the Judge & Advocate General is true, then that is faise which he has given to the public. If on the other hand the record published with his official sanction is true, then that in his bureau

What Ex-President Johnson has to

NO. 69

ceeded in the discovery of only one wit-ness who said he saw the record of the case with the petition attached in the President's office. This witness is Hon. James Speed, then Altorney General, who is undoubtedly mistaken in his statespurpose of maintaining passenger rates, and protesting against the movement of radirosal managers to abolish the business of commission agencies. Every agent in the city was present. Steps were taken to commission agencies. Every agent in the city was present. Steps were taken soons captured with the Virginius, and gave him the assurance that no efforts try and a committee appointed consisting of Swan, of the Astor House, Burnham, of the Stoth Avenue Hotel, and Bascome, of the Gilsey House, to represent the Assurance that the Gilsey House, to represent the Assurance at the capture of the Gilsey House, to represent the Assurance so the Court were submitted on the Stoth Gyaly. He and I being alone don't be then and there approved by the executive and taken by the Judge Advocate General to the War Department, where of the Gilsey House, to represent the Assurance when the control of the summary manner of the court were submitted on the Stoth of July. He and I being alone don't be then and there approved by the executive and taken by the Judge Advocate General to the War Department, where of the Gilsey House, to represent the Assurance when the Virginius, and gave them and tene approved by the executive and taken by the Judge Advocate General to the War Department, where on the same afternoon the order to carry them into effect was issued. Mr. Speed doubtless saw the record, but it must have is believed by those who have been officially advised of them, made in good faith.

Mrs. Captain Hall to day paid a visit to be parallely advised of them, made in good faith.

Mrs. Captain Hall to day paid a visit to but the Spanlah government, like our own, of the court was submitted on the Stoth July. the cases of Harold, Atzerath and Payne were considered in the order named, and then the sentence in the case of Mrs. Surman was in itself no excuse or palliation

that when a woman unsexed herself and entered the arena of crime it was rathe an aggravation than a mitigation of the offence; that the law was not made to punish men exclusively, but all without regard to sex who violated its provisions, and that to discriminate in layor of Mrs. Surratt and against Harold Asserts and Papur who were sentenced Atzerot, and Payne, who were sentenced by the same Court, and at the same time to suffer the penalty of death, would be Special Agents for Smith, Porter & Co's Sewe Pipes, Land Drain and Stove Pipes.
